

GOOGLE CLASSROOM

What is Google Classroom?

- Google Classroom is a free blended learning platform developed by Google for educational institutions that aims to simplify creating, distributing, and grading assignments.
- As of 2021, approximately 150 million users use Google Classroom.

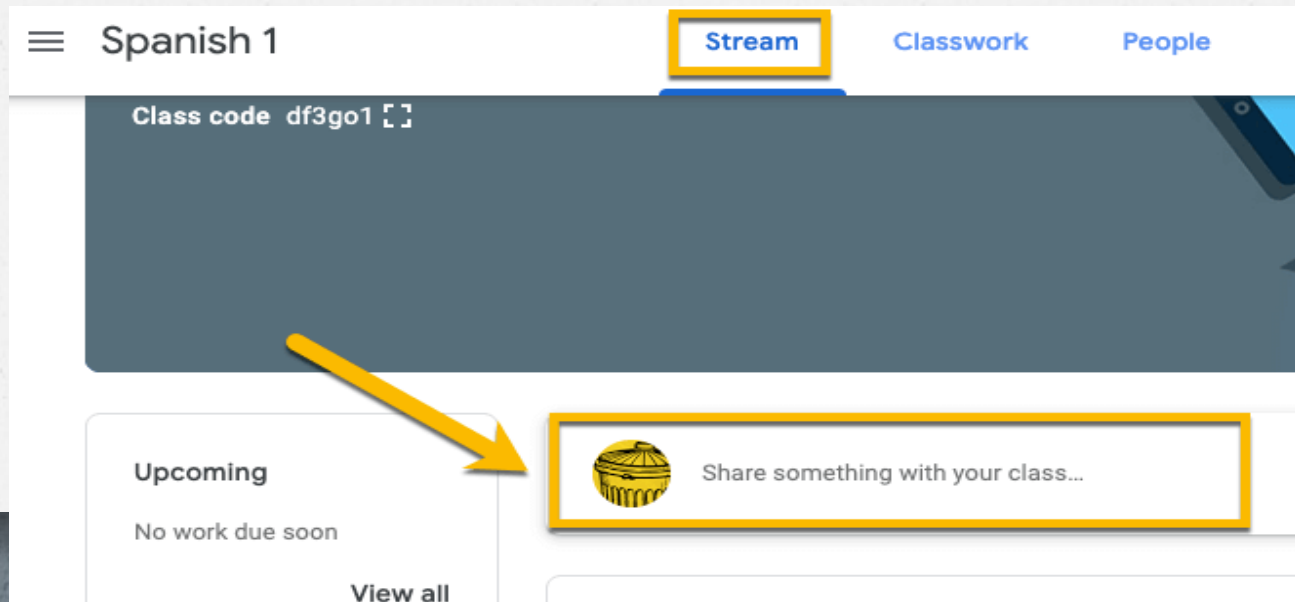

Features of Google Classroom

- Customizable Grading System
- Virtual Discussions
- Announcements
- Live Classes

Working of Google Classroom

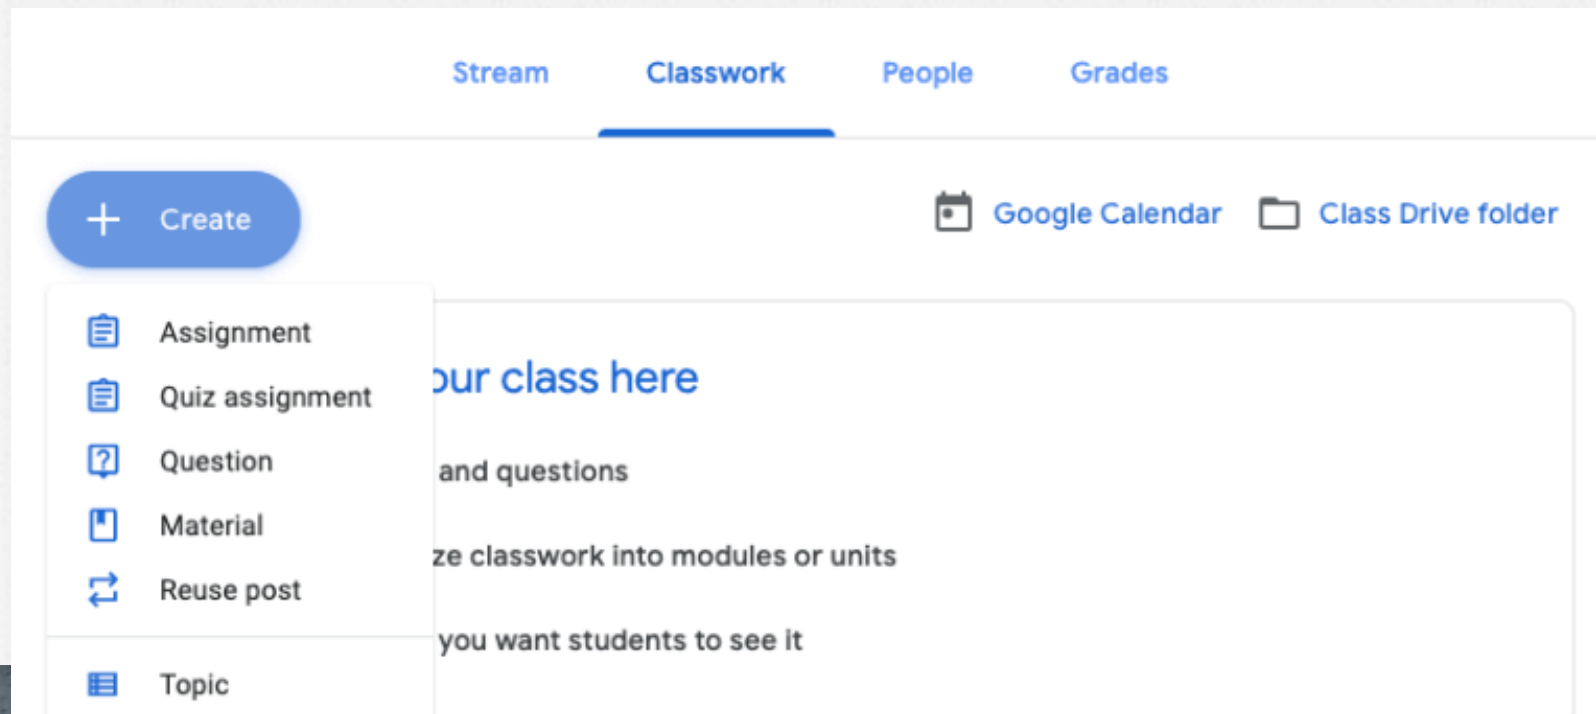

1. Add an announcement.

Go to your class Stream and click on “share something with your class”. Add the text for your announcement. Add any files (attached or from Google Drive), YouTube videos or links you’d like. Then post it (or schedule it for later).

2. Create an assignment, quiz, question, attach material, or reuse an old post.

This is where students get to work! You can create a graded (or ungraded) question for students to answer, a quiz, OR assignment for students to do. You can create them under the “Classwork” tab (above).

3. Organize your class with topics.

If you have different chapters, units, subjects, etc. within your class, you can categorize your assignments and questions by topic to keep everything organized.

Under “Classwork”, click the “Create” button and add a topic. Then, whenever you create a new assignment or announcement, you’ll be able to add that topic to it.

Unit 1

Practice questions

Posted August 12, 2019

What do you want to learn?

Posted August 12, 2019

National Geographic article

Posted August 14, 2019

Unit 2

Vocabulary quiz

Posted August 19, 2019

What do you remember?

Posted August 20, 2019

4. Grade and return work

Once students have completed work, you can provide feedback and grade the assignment. Click on the “Classwork” button and click on the assignment to view student work.

Spanish 1 INSTRUCTIONS STUDENT WORK

5 RETURN 100 points

☐ All students

Sort by status

☐ Turned in

Student	Status	Score
Ditch That Textbook	Turned In	3/100
